### COMPOSITION

Our Lush Crown range is a new generation solid surface developed by Mosaico Vero. The new generation solid surface has a natural stone feel and is warm to the touch. Its composition consists of two-thirds natural minerals (one of them being Aluminium Trihydrate) and high resistance resins at a low percentage.

There are many benefits of this new generation solid surface composition. It has no pores, it is antibacterial, it is hard-wearing and highly resistant. It requires minimum maintenance and is easy to clean.
